Art Unit: 2811

1. Claims 108-121 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification never discloses the dummy structure in a top conductive layer as claimed in claim 108. The specification also never discloses a plurality of dummy structures used to facilitate an even polishing of a surface of the semiconductor die as claimed in claim 108. The specification also never discloses the voltage contrast structure is used to detect electrical defects as claimed in claim 108.

The specification never discloses the test structure comprises the first conductive layer, the first isolation layer, the second isolation layer, the first contact and the second contact as claimed in claim 110.

The specification also never discloses the claimed subject matters as claimed in claims 111, 112, 113.

The specification never discloses some of the test structures include contacts for coupling its dummy structure to a substrate of the semiconductor die as claimed in claim 114.

The specification also never discloses the claimed subject matters as claimed in claims 115 and 116.

The specification never discloses the test structure comprises a first conductive layer and a via as claimed in claim 117.

The specification also never discloses the claimed subject matters as claimed in claims 118 to 121.

2. Claims 114-116 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 114, lines 2-3, the phrase "forming a plurality of test structures on the semiconductor die, wherein at least a portion of each test structure includes a dummy structure" is vague and indefinite because claim 108 has disclosed the dummy test structures. The phrase is just repeating the claimed language of claim 108.
